Customer Journey Map

Date	03 October 2026
Team ID	SWTID-2026-5999
Project Name	PocketSmart AI — AI-Assisted Goal-Based Budget Planner
Maximum Marks	2 Marks

Journey Stage	Stage 1: Discover	Stage 2: Define the Plan	Stage 3: Review & Act	Stage 4: Revisit
Customer Actions	Opens the application and understands the budget-first concept	Selects a planner, enters budget and requirements, then submits	Reviews allocation, remaining budget and recommended items	Opens history to revisit an earlier plan
Touchpoints	Landing page and account screens	Home, Party or Jewelry planner	Result panel and external search links	Dashboard and History
Customer Thought	“Can this reduce the time I spend planning?”	“Will the suggestions respect my limit?”	“I can see where the money is going.”	“I can reuse this plan instead of starting again.”
Customer Feeling	Curious	Cautiously optimistic	More confident	Reassured
Process Owner	Sabarirajan R	Sameer Ahamed T + Gogul M	Sameer Ahamed T + Sabarirajan R	Kawin M + Barathi Shankar R
Improvement Opportunity	Add a short example plan	Add editable budget presets	Add more retailer data and price comparison	Add plan comparison and export

Key Journey Principle

The application is designed around one simple transition:

“I have a spending limit” → “I have a structured plan” → “I can verify the plan before I shop.”
