Team Involvement in Demonstration

Date	03 October 2026
Team ID	SWTID-2026-5999
Project Name	PocketSmart AI — AI-Assisted Goal-Based Budget Planner
Maximum Marks	1 Mark

Team Involvement

S.No	Team Member	Role in Demo	Section Presented	Contribution
1	Gogul M	Team Lead & Backend Developer	Problem-to-solution flow and backend architecture	API routes, budget verification and overall integration
2	Sameer Ahamed T	AI / GenAI Developer	Gemini workflow and live planning	Prompt design, structured AI response and fallback handling
3	Sabarirajan R	Frontend & UI/UX Developer	User interface and planner screens	Responsive pages, forms and result presentation
4	Barathi Shankar R	Testing & Quality Engineer	Validation and testing	Test cases, edge cases, regression checks and performance evidence
5	Kawin M	Database, Documentation & Deployment	History, repository and project documentation	SQLite/history, GitHub organization, setup and phase documents

Coordination

Aspect	Details
Team Coordinator	Gogul M
Code Collaboration	GitHub branches and pull requests
Testing Coordination	Barathi Shankar R
Documentation Coordination	Kawin M
Final Demo Participation	All five members

Demonstration Principle

Each member presents the part they contributed so the demonstration covers both the working application and the engineering decisions behind it.
